

CASSANDRA KRAWCZAK-BRODIE

CYBERSECURITY STUDENT | SECURITY OPERATIONS | THREAT ANALYSIS

Florissant, MO | 314-333-2777 | Cassandra.Hopkins1@yahoo.com linkedin.com/in/cassandra-hopkins-14a572345 |

github.com/cassandrak-cyber

Portfolio: cassandrak-cyber.github.io

PROFESSIONAL SUMMARY

Cybersecurity student with hands-on academic experience in SIEM analysis, threat detection, network security, and incident response. Brings more than four years of T-Mobile experience in technical troubleshooting, account protection, and fraud awareness, plus a completed degree in Human Services. Seeking a cybersecurity internship to contribute analytical, documentation, and communication skills while developing practical cyber defense expertise.

EDUCATION

University of Phoenix | Bachelor of Science in Cybersecurity

In progress | Expected graduation: 2027

Tacoma Community College | Tacoma, WA

Associate of Applied Science in Human Services | June 2017

TECHNICAL SKILLS

SOC & SIEM: Microsoft Sentinel, Splunk, log analysis, alert investigation, incident response, MITRE ATT&CK, indicators of compromise (IoCs), detection rules

Networking & security tools: Wireshark, Tshark, Zeek, tcpdump, Nmap, Nessus, OpenVAS, Snort; networking fundamentals, packet analysis, vulnerability assessment

Systems & scripting: Windows, Linux (Kali Linux, Ubuntu, Fedora), Python, PowerShell, Bash, SQL; authentication, access control, Active Directory security concepts

CYBERSECURITY PROJECTS & LABS

Hands-on academic experience in controlled environments

Threat Emulation & Incident Analysis

- Modeled a managed file transfer breach through reconnaissance, scanning, exploitation, collection, simulated exfiltration, persistence, and post-incident analysis.
- Mapped attack behaviors to MITRE ATT&CK; built an attack timeline, documented evidence, generated SHA-256 hashes, and recommended detection improvements.

Security Operations & SIEM

- Used Microsoft Sentinel and Splunk to investigate alerts, Windows security events, authentication activity, and suspicious PowerShell behavior.
- Practiced creating and evaluating detections for brute-force attempts, ransomware behaviors, cleared security logs, and suspicious scheduled tasks; assessed escalation needs.

Network Security & Threat Detection

- Captured and analyzed traffic with Wireshark, Tshark, Zeek, and tcpdump to examine HTTP, DNS, authentication activity, and potential attack indicators.
- Performed network discovery and vulnerability scanning with Nmap and vulnerability scanners; practiced penetration-testing techniques in isolated academic environments.

CASSANDRA KRAWCZAK-BRODIE | CYBERSECURITY INTERNSHIP

1

CASSANDRA KRAWCZAK-BRODIE

CYBERSECURITY INTERNSHIP | PROFESSIONAL EXPERIENCE

PROFESSIONAL EXPERIENCE

T-Mobile | Mobile Expert

March 2022 - Present

- Troubleshoot smartphones, tablets, applications, account access, authentication, and connectivity issues in a fast-paced customer environment.
- Apply identity verification, authentication, account security, and privacy procedures when accessing or modifying sensitive customer information.
- Recognize potential account fraud, suspicious activity, and social engineering indicators; follow established escalation procedures.
- Educate customers on account security, authentication, device protection, and safe technology practices.
- Maintain accurate account documentation, device records, inventory, and financial transactions while following company policies.
- Assist coworkers with technical issues and explain complex information clearly to customers with varying levels of technical knowledge.

CarShield | Retention Specialist

August 2020 - September 2021

- Reviewed customer accounts and documentation to identify concerns, research account information, and determine appropriate solutions.
- Handled sensitive customer and payment information under company privacy procedures; accurately documented interactions across multiple computer systems.
- Applied problem-solving, communication, and de-escalation skills in a high-volume customer environment.

St. Louis Crisis Nursery | Children's Specialist

September 2019 - April 2020

- Maintained confidential records, documented observations and incidents, and communicated important information to team members.
- Used sound judgment, attention to detail, and rapid decision-making while collaborating to maintain a safe, structured environment.

Tacoma Community College | Bookstore Assistant

February 2015 - February 2019

- Assisted students, faculty, and staff with purchases, questions, and problem resolution.
 - Processed financial transactions, maintained accurate records, and supported inventory management and daily operations.
-

ADDITIONAL QUALIFICATIONS

Language: Fluent in American Sign Language (ASL)

Professional strengths: Technical troubleshooting, analytical problem-solving, confidential information handling, incident documentation, teamwork, and communication with nontechnical audiences.
